**Welcome to you all, Class of '72,
We want to wish you all Good Luck in everything you do.
We have come to greet old friends and to say our "Hi's"
When the evening has ended, we will say our Byes.**

**We will all go back to our own way of life,
And take all that is given us in strife.
We've all changed in our own little ways,
And some of us even walk around in a daze.**

**It's hard to believe we've been out of school thirty years,
But for some of us, all we have to do is look into the mirror.
There are some of us, who haven't changed a bit,
And there are some of us, who work hard to stay fit.**

**Some of us are losing our hair,
And for some of us, we just don't care.
Some of us have hair with lots of gray,
Some of us try to cover it up and some of us just let it stay.**

**A few more of us need those glasses to read,
And there are some of us who have done a good deed.
Some of us have those extra pounds,
And yes, some of us have trouble hearing some sounds.**

**Some have kids, who have kids of their own,
And some are glad to just have their kids grown.
Some of us have had nothing but gladness,
Then some have had more than their share of sadness.**

**Remember when we thought 30, 40, or 50 was old,
And we didn't want to do what we were told.
We have all seen many changes in the world we knew,
Computers, Internet, Terrorists are just a few.**

**Through all these changes, there is one thing that's nifty,
We have a couple of years before we reach Fifty.
We have all changed, but we still have that special bond of glue,
That's what makes us the "Class of 1972"**

Bill Appuhn

129 S. Division

Du Quoin

Spouse: Virginia (Emling) Appuhn

I continue to research and experiment with alternate energy and conservation because I'm sick of America's addiction to foreign oil. Dr. Whitecotton and I keep trying to clean-up DuQuoin government and reform our politics. It was initially so bad in the mid 1,990's that if we can do it here then it can be done anywhere. Some think I've been jousting with windmills (Don Quixote), but I prefer Jim Morrison's vision of "testing the bounds of reality".

Does DuQuoin need a new newspaper? You tell me.

Comments: The size, cost, and audacity of governments around the world are completely out of control on every level. It hurts me to say that America and Illinois and Du Quoin are no exception.

Spouse: Larry Pfau, State Farm Agent

Kids: Ruben – 12 ½ years old, entering 7th grade. He is a 5.0 honor student who plays Baritone, basketball, and baseball
Brian – 16 ½ years old, entering his junior year of high school. He, too, is an honor student, ranking 9th in his class of 127. He plays the tuba in the band, played basketball, football, and baseball and this year is giving a try at crosscountry.

Emily – she would be 18 years old now and would have graduated in the class of 2002 at PCHS as a valedictorian. Unfortunately we lost her in September 2001 in a freak car accident in front of the high school. She was a very special girl, with many accomplishments and what we thought as a great future. Our family has struggled this past year and we are thankful for cards, prayers and support from friends.

Occupation: I have a sewing business out of my home that keeps me very busy.

Hobbies or Interests: I love to garden and have many flowers to take care of. I have taught 3 year old Sunday School for about 15 years. I interpret for a deaf woman in our church. I have volunteered for Special Olympics in Bloomington for about 8 years.

Comments: This past year our lives have been turned upside down. There have been days that are absolutely unbearable. I hope that none of you ever have to go through what we have been through. We have had to adjust to our 'new' family. The

everyday little things are the hardest. Don't sweat the small stuff. Be thankful everyday for your children and your spouse. Live every day like it is the best day of your life. We are so thankful that we have 2 wonderful boys that make me get up everyday and be thankful for what I still have. We also rest in the fact that we know Emily is in heaven; some people don't have that assurance. Continue to pray for us, sometimes I don't even feel like that works. Hug your kids, everyday and tell them you love them.
